RE: Public Notice of Municipal Separate Storm Sewer System General Permit SWPPP
Document: City of New Brighton

Dear Mr. Wyffels:

The staff of the Municipal Division of the Minnesota Pollution Control Agency (MPCA) has finished its technical review of your Municipal Separate Storm Sewer System (MS4) Permit Application (Application) and Stormwater Pollution Prevention Program (SWPPP) Document for coverage under the National Pollutant Discharge Elimination System/State Disposal System General Permit MNR040000 for MS4s (Permit). MPCA staff has determined that your application is complete and ready to move into the next stage of the re-application process.

Pursuant to the requirements of a Minnesota Court of Appeals ruling, the MPCA is required to provide public notice and opportunity for hearing on each MS4's proposed SWPPP Document. Based on the technical review, the MPCA has determined that your SWPPP Document meets or exceeds the minimum permit requirements; therefore, it is ready for public notice. Accordingly, the MPCA plans to place the Application and SWPPP Document for City of New Brighton on a 30-day public notice comment period from February 4 to March 6, 2014.

As a reminder, you are required to have your Application and SWPPP Document available locally for public review. The MPCA recommends that a hard copy be made available at more than one location, including your office, public library, or other supervised public facility. The MPCA will also post a copy of the SWPPP Document on the MPCA's Stormwater Wiki. A link to this website will be included in the notice placed on the MPCA's public notice webpage.

The MPCA will receive all comments and forward them to you immediately. Following the public notice period, you will be required to provide resolution, including justification of why or why you are not modifying your SWPPP Document, for all comments submitted. These responses will be sent to the MPCA, which will review the responses and any SWPPP Document modifications before forwarding responses to commenters and issuing Permit coverage. The MPCA requests that responses be returned to the MPCA within one week of the public notice period end date. For any complex or difficult comments, the MPCA requests that at least a schedule for resolution is submitted within one week of the public notice period end date.
