January 28, 2021

The Goal of Minnesota's Professional Peace Officer Education (PPOE)

The goal of professional peace officer education is to produce peace officer license eligible candidates who have the knowledge, skills and attributes necessary for performance of an entry level peace officer in Minnesota as identified by the law enforcement profession. In broad terms this means candidates who

- 1) understand the U.S. and Minnesota criminal justice systems and laws,
- 2) speak, read, write and listen effectively in interpersonal and group interactions,
- 3) think critically and creatively in seeking solutions to practical and theoretical problems alone and in groups,
- 4) make timely decisions based on the circumstances and on law enforcement related theoretical and experiential learning,
- 5) demonstrate an understanding of the duties and tasks most commonly expected of peace officers and how to perform those tasks responsibly, ethically, and with appreciation for cultural differences, and
- 6) integrate and apply all these abilities to serve citizens, protect individual freedoms, promote peace and justly enforce the law in the State of Minnesota.

Introduction to the Learning Objectives

In accordance with Minn. Stat. 626.843, Subd. 1,(7), and Minn. Rules 6700.0300, the Minnesota Board of Peace Officer Standards and Training Board (POST Board) has established a set of learning objectives for professional peace officer education (PPOE). Those colleges and universities certified by the POST Board to provide education leading to peace officer licensure must incorporate these objectives into their curriculum.

The learning objectives are divided into four categories and each category is divided into numbered sections with objectives assigned to each section. The objectives are numbered by category then by section followed by an objective number; for example, the number 2.1.3. means the objectives is in Category two, Section one, and is the third objective 3 in the section.

Category One is *Core Competencies*. Peace officer competency in the areas described in this category is critical to overall professional performance. It is a goal of professional peace officer education to ensure POST Board certified PPOE programs include a well-grounded theoretical foundation in the concepts included in this category as well as practical experience in applying those concepts throughout the student's PPOE experience.

Category Two is *Foundational Knowledge*. One of the earmarks of a profession is a specialized body of knowledge that is the foundation of, and intrinsic to, competent professional practice. Professional knowledge for peace officers is more than comprehension. It is the analysis, synthesis and internalization of law enforcement and

criminal justice concepts, theories and research which provide a foundation for making decisions and forming views about how the roles of peace maker and law enforcer relate to the world a peace officer lives and works in. It is a goal of Minnesota's professional peace officer education to ensure peace officer license eligible candidates demonstrate knowledge in the areas listed in Category Two. These areas are grouped into three parts: Legal Studies, Human Behavior and Other. Some of these objectives overlap with one another and many have practical counterparts in Categories Three and Four.

Category Three is *Performance of Peace Officer Duties and Tasks*. It is a goal of Minnesota's professional peace officer education to ensure individuals who are eligible for a peace officer license have experience in performing the most common, most important, and highest risk duties of a peace officer as itemized in Category Three while integrating the core competencies of Category One and the foundational knowledge of Category Two and the tools of Category Four as needed.

Category Four is *Tools, Techniques and Tactics*. Peace officers may employ a wide variety of tools, techniques and tactics to enhance safety, effectiveness and efficiency of performance. It is a goal of Minnesota's professional peace officer education to ensure peace officer license eligible candidates demonstrate the ability to properly use and maintain tools, and demonstrate the mechanics of techniques and tactics peace officers need to employ.

Prerequisites for Success

Applicants to a program of professional peace officer education need to be competent in reading, including comprehension and interpretation skills; writing, including grammar, punctuation and spelling; speaking and listening skills; mathematics skills, including basic arithmetic operations, measurement, and chart/table/graph comprehension; basic scientific process skills, including observation, postulation, evaluation and drawing evidence-based conclusions, and data gathering and interpreting; and, computer operations skills including keyboarding, internet navigation and file management.
